1996 Measure B Transportation Improvement Program

Field Activity Report # 07 12 04*

Covering Monday, July 12 through Sunday, July 18, 2004

***The following activities are based on weather and conditions permitting.**

Route 85/U.S. 101 (North) Interchange Project

What: Full southbound U.S. 101 freeway closure at Route 85/U.S. 101 North Interchange. Crews are demolishing the old northbound Route 85 to northbound U.S. 101 connector ramp. The new connector ramp is the temporary Route 85 to U.S. 101 bridge. Daytime traffic should not be affected.

Detour: Merge onto southbound Route 85 to Central Expressway exit, turn right on Central Expressway, turn right on Moffett Boulevard to southbound U.S. 101.

When: July 12 through July 16, 2004, 12:01 a.m. to 5:00 a.m.

What: Crews are forming bent footings at Old Middlefield for the construction of the new Old Middlefield Way off-ramp. Traffic should not be affected as the work area is behind safety barriers.

When: July 12 through July 16, 2004, 7:00 a.m. to 5:00 p.m.

What: Crews are pouring the top deck along southbound U.S. 101 for construction of the new braided ramp from Shoreline Boulevard to Route 85. Traffic should not be affected as the work area is behind safety barriers.

When: July 12 through July 16, 2004, 7:00 a.m. to 5:00 p.m.

What: VTA contractors are demolishing retaining walls at Stevens Creek Trail on both sides of the U.S. 101 under-crossing for the widening of U.S. 101 over Stevens Creek. A protective cover over the trail has been provided to maintain bicycle and pedestrian traffic during work within the creek. Work will continue through October 2004.

When: July 12 through July 16, 2004, 7:00 a.m. to 5:00 p.m.
